Program Description The Occupational Safety and Health Technician AAS-T was developed due to the high demand for trained professionals in this field. This two-year degree program provides education and training for individuals currently working in the safety field and for students desiring to work with national and state workplace safety and health standards.

This Associate in Applied Science-T (AAS-T) is a **99-102** credit professional technical degree with a core of general education courses commonly accepted in transfer. In general, professional-technical degrees are not designed for transfer to other colleges or universities. This degree may articulate to Central Washington University, Evergreen State College, City University and University of Phoenix. Students planning to transfer to a four-year institution should contact an adviser from that school to create a four-year plan. Please note that articulations are subject to annual revision. EdCC cannot be responsible for changes in graduation requirements at other institutions. Students seeking to transfer to degree programs other than those specifically designed for the AAS-T should consider the Associate of Arts or the Associate of Science degree, which are specifically designed for transfer to four-year colleges and universities.

Degree Outcomes For information on degree outcomes, see www.edcc.edu/outcomes/degrees.php.

Credit/Grade Requirements The AAS-T degree is awarded upon completion of minimum of **99** credits of General Requirements, Distribution Requirements, and Specified Requirements outlined on the program requirement sheet. A minimum of 30 credits or one-third of the required credits, whichever is less, must be earned at Edmonds Community College. Students are required to maintain a minimum cumulative grade point average of 2.0 in all college-level courses.

General Education/Related Instruction Requirements

Students who complete degrees or certificates of 45 credits or more are required to demonstrate learning in the following general education/related instruction areas: communications, computation/quantitative skills, and human relations/group interaction. All courses in the general education component of the AAS-T must be generally transferable courses and they must assure that the student have a foundation in communication and quantitative skills as well as an introduction in science, social science and humanities. These courses may also serve the dual purpose of meeting industry requirements for job preparation.

Associate in Applied Science-T Degree

Program Requirements 2010-2011

Common Course Numbering Changes Please refer to www.edcc.edu/ccn for more information.

Cultural Diversity Edmonds Community College requires that students earning a degree or certificate of 45 credits or more meet the Cultural Diversity Requirement. Courses that satisfy this requirement are marked as “: CD” on the requirement sheet and/or “Meets Cultural Diversity Requirement” in the quarterly class schedule.

Transfer of Credit Non-OSH credits will transfer from any accredited college to satisfy all non-OSH requirements. To transfer non-OSH credits, students must request an evaluation of their college transcripts through the college registration office. This should be done during the student’s first quarter at the college.

Students are Advised to

- Consult with an OSH faculty adviser quarterly for course selection and completion of degree requirements and plan their schedule several quarters in advance. *Note: All decisions on selection of courses are ultimately the responsibility of the student*
- Review the college catalog for required course prerequisites and include these in schedule planning
- All students who intend to transfer should meet with an adviser of the college they plan to transfer to, and review specific admission requirements

Graduation Application A completed Graduation Application form must be submitted to Enrollment Services by the 10th day of the quarter in which the student expects to graduate. Forms are available at Enrollment Services located in Lynnwood Hall, or online at www.edcc.edu/credentials/

Quantitative or Symbolic Reasoning

1. Computation/Quantitative Skills: Students must complete a quantitative reasoning course in statistics with intermediate algebra as a prerequisite. Math& 107 is recommended as an additional elective for students planning to transfer to a four-year school.

Distribution Requirements

2. Please see an OSH faculty adviser to arrange the required internship, BUS 290/291.
3. The remaining Elective credits can be selected from recommended professional technical or transfer courses with a course number of 100 or higher. Courses listed are recommended for completion of this degree by advisory board. Other recommended courses include BSTEC 294 or JOBDRV 110. Please see a faculty adviser.
